Step 5 - Lifting into shape

Use suspension cable to lift the Hush Round approximately 650mm from the floor/surface.

The panels will begin to fall into their natural shape.

Use the folded cardboard pillar that was in the box (or similar-sized table) to prop it up.

Step 6A - Weaving of Panels - Exploded Detail

Bold Lines indicate the 'Ear' that sits on the outside of the Hush Round.
This weaving pattern is essential to lock the shape together

Once two panels are woven together, use two of the shorter Ratchet Rivets (13 mm) to lock them together.

Step 7 - Height Adjustment and Levelling

Ceiling Mounting Point.

If installing into wood use a countersunk timber screw (not supplied) to affix cone grip to ceiling.

If installing into concrete use countersunk anchor bolt (not supplied) to affix cone grip to ceiling.

To shorten wire:
Pull cable through hole
in side of gripper point

To lengthen wire:
Depress cylinder at top
of gripper point and pull
wire out
