Step 2 - Pop out side panel plugs

Push out the 4 plugs per panel to make way for the plastic clips.

HUSH ROUND

by David Trubridge Ltd.

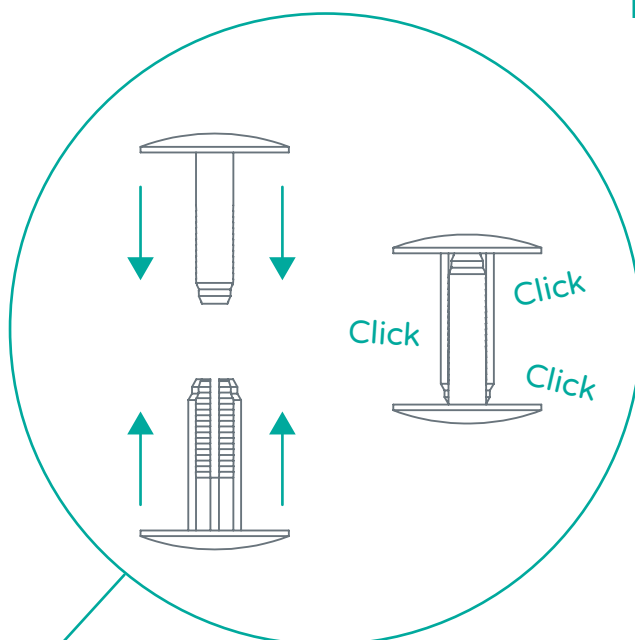

Step 3 - Top Panel to Side Panel Assembly

Assemble on a large clean surface or on floor.

NOTE Ratchet Rivets must be pushed together fully for maximum strength

Large Ratchet Rivet (19mm) x 20

NOTE: Do not put ratchet rivet on first panel until all panels have been clipped on.

Proceed
Anti Clockwise

Step 5 - Lifting into shape

Use suspension cable to lift the Hush Round approximately 650mm (55 in) from the floor/surface.

The panels will begin to fall into their natural shape.

Use the folded cardboard pillar that was in the box (or similar-sized table) to prop it up.

Step 6A - Weaving of Panels - Exploded Detail

Bold Lines indicate the 'Ear' that sits on the outside of the Hush Round.
This weaving pattern is essential to lock the shape together

Once two panels are woven together, use two of the shorter Ratchet Rivets (13 mm) to lock them together.

Step 7 - Height Adjustment and Levelling

Ceiling Mounting Point.

If installing into wood use a countersunk timber screw (not supplied) to affix cone grip to ceiling.

If installing into concrete use countersunk anchor bolt (not supplied) to affix cone grip to ceiling.

To shorten wire:
Pull cable through hole
in side of gripper point

To lengthen wire:
Depress cylinder at top
of gripper point and pull
wire out
