## About

Inspired by small islands in the Pacific Ocean, the Island Seating is designed by world-renowned designer, David Trubridge.

The Island Seating's organic shapes and gentle curves break up the straight lines and hard edges common in today's modern interiors.

A unique alternative to traditional ottoman shapes, they are ideal grouped together in foyers or receptions, or as a statement piece in a living room. They are a great way to add a little extra seating to a space or as collaborative hubs in the office.

Personalise each ottoman in your favourite alternating colours for maximum impact in a variety of applications.
