About

The Monogram Rocking Chair is a design classic and an exquisite work of art. Its interconnected curves create a supple, strong and elegant support for the human body.

Each part is painstakingly handcrafted using favourite hand tools such as a Japanese whittling knife and a spoke-shave, which allows for rougher and finer shaping to take place.

Available in Walnut and Sycamore wood, and using the steam bending process, David Haig produces up to ten Monogram Rocking Chairs each year.

Dimensions

850L x 580W x 1150H

Options

- Available in English Walnut, American Walnut, or English Sycamore wood.

Designer

David Haig

Designed and made in New Zealand.
