About

The Nectar Lightshade is a soft reminder of the beauty of nature and the amazing strength of the honeycomb structure.

Made from a lightweight acoustic fabric, the Nectar Lampshade can vastly improve the acoustic comfort of various spaces while providing a more direct light source.

Come as a flat packed kitset to minimise packaging materials and to reduce its size for transport. Assembly required.

Note: Does not come with bulb, cord or ceiling rose.

Dimensions

| | |
|------------------|--------------------------|
| Half shade | 270mmH x 360mmW x 360mmL |
| Half shade large | 460mmH x 720mmW x 720mmL |
