About

The Punga lights are a family of simple and elegant hanging pendant light shades inspired by the growth patterns found on the trunk of the native New Zealand tree fern or Punga.

The design and use of the laser cutter results in extremely low waste of the sustainably grown Australian Hoop Pine used to manufacture the lights.

The Punga lights can be hung individually or in clusters, and provide a warm and subdued lighting effect.

Sizes

Small - 185mm dia x 290mm
Medium - 185mm dia x 455mm
Large - 185mm dia x 610mm
Drum - 420mm dia x 290mm
